- ① - I first saw an area  
with green grass and several  
tall trees. It was an area  
that was very well taken care  
of. I also saw a road here.  
The view was very scenic.
- ② - Then I kept getting  
the impression of something  
moving in a circular direction  
and it has a slapping sound.
- ③ - Then I saw big books  
with big pages. Someone was  
turning the pages. The book  
dealt with people.
- ④ - Then I saw structures  
in row and they reminded  
me of houses or homes  
and there was a locking  
up, changing, moving along  
as if people were being  
moved or relocated. I  
think that people met somewhere  
to look at something or to  
hear someone speak. I could  
not see.
